

Defense Manufacturing Assistance Program

“Serving companies impacted by the defense draw-down through diversification based on commercialization of technology and intellectual property residing in colleges and universities.”

Company Services:

- Business analysis and planning assistance
- Project identification (core strengthening, market diversification, new technology commercialization)
- Project development, consultant identification, new technology identification
- Project funding assistance (projects may be co-funded up to 50%)

Eligibility Requirements:

- Small to Medium-sized supplier to the defense industry
- 5% decrease in Sales, Production or Employment due to reduction in Defense contracts (or imminent threat of reduction in the immediate future)
- Data on sales, production and employment must be current as of the immediate past 24 months for losses, and in the case of imminent threat, for the immediate future 24 months
- Top Management dedicated to strengthening the company and re-growing the business
- Ability to provide matching project funds (up to \$25,000 funding available for selected companies)
- Willingness to work with outside service providers
