

MICHIGAN LAUNCH INITIATIVE

Horizontal Launch Site – Oscoda, MI

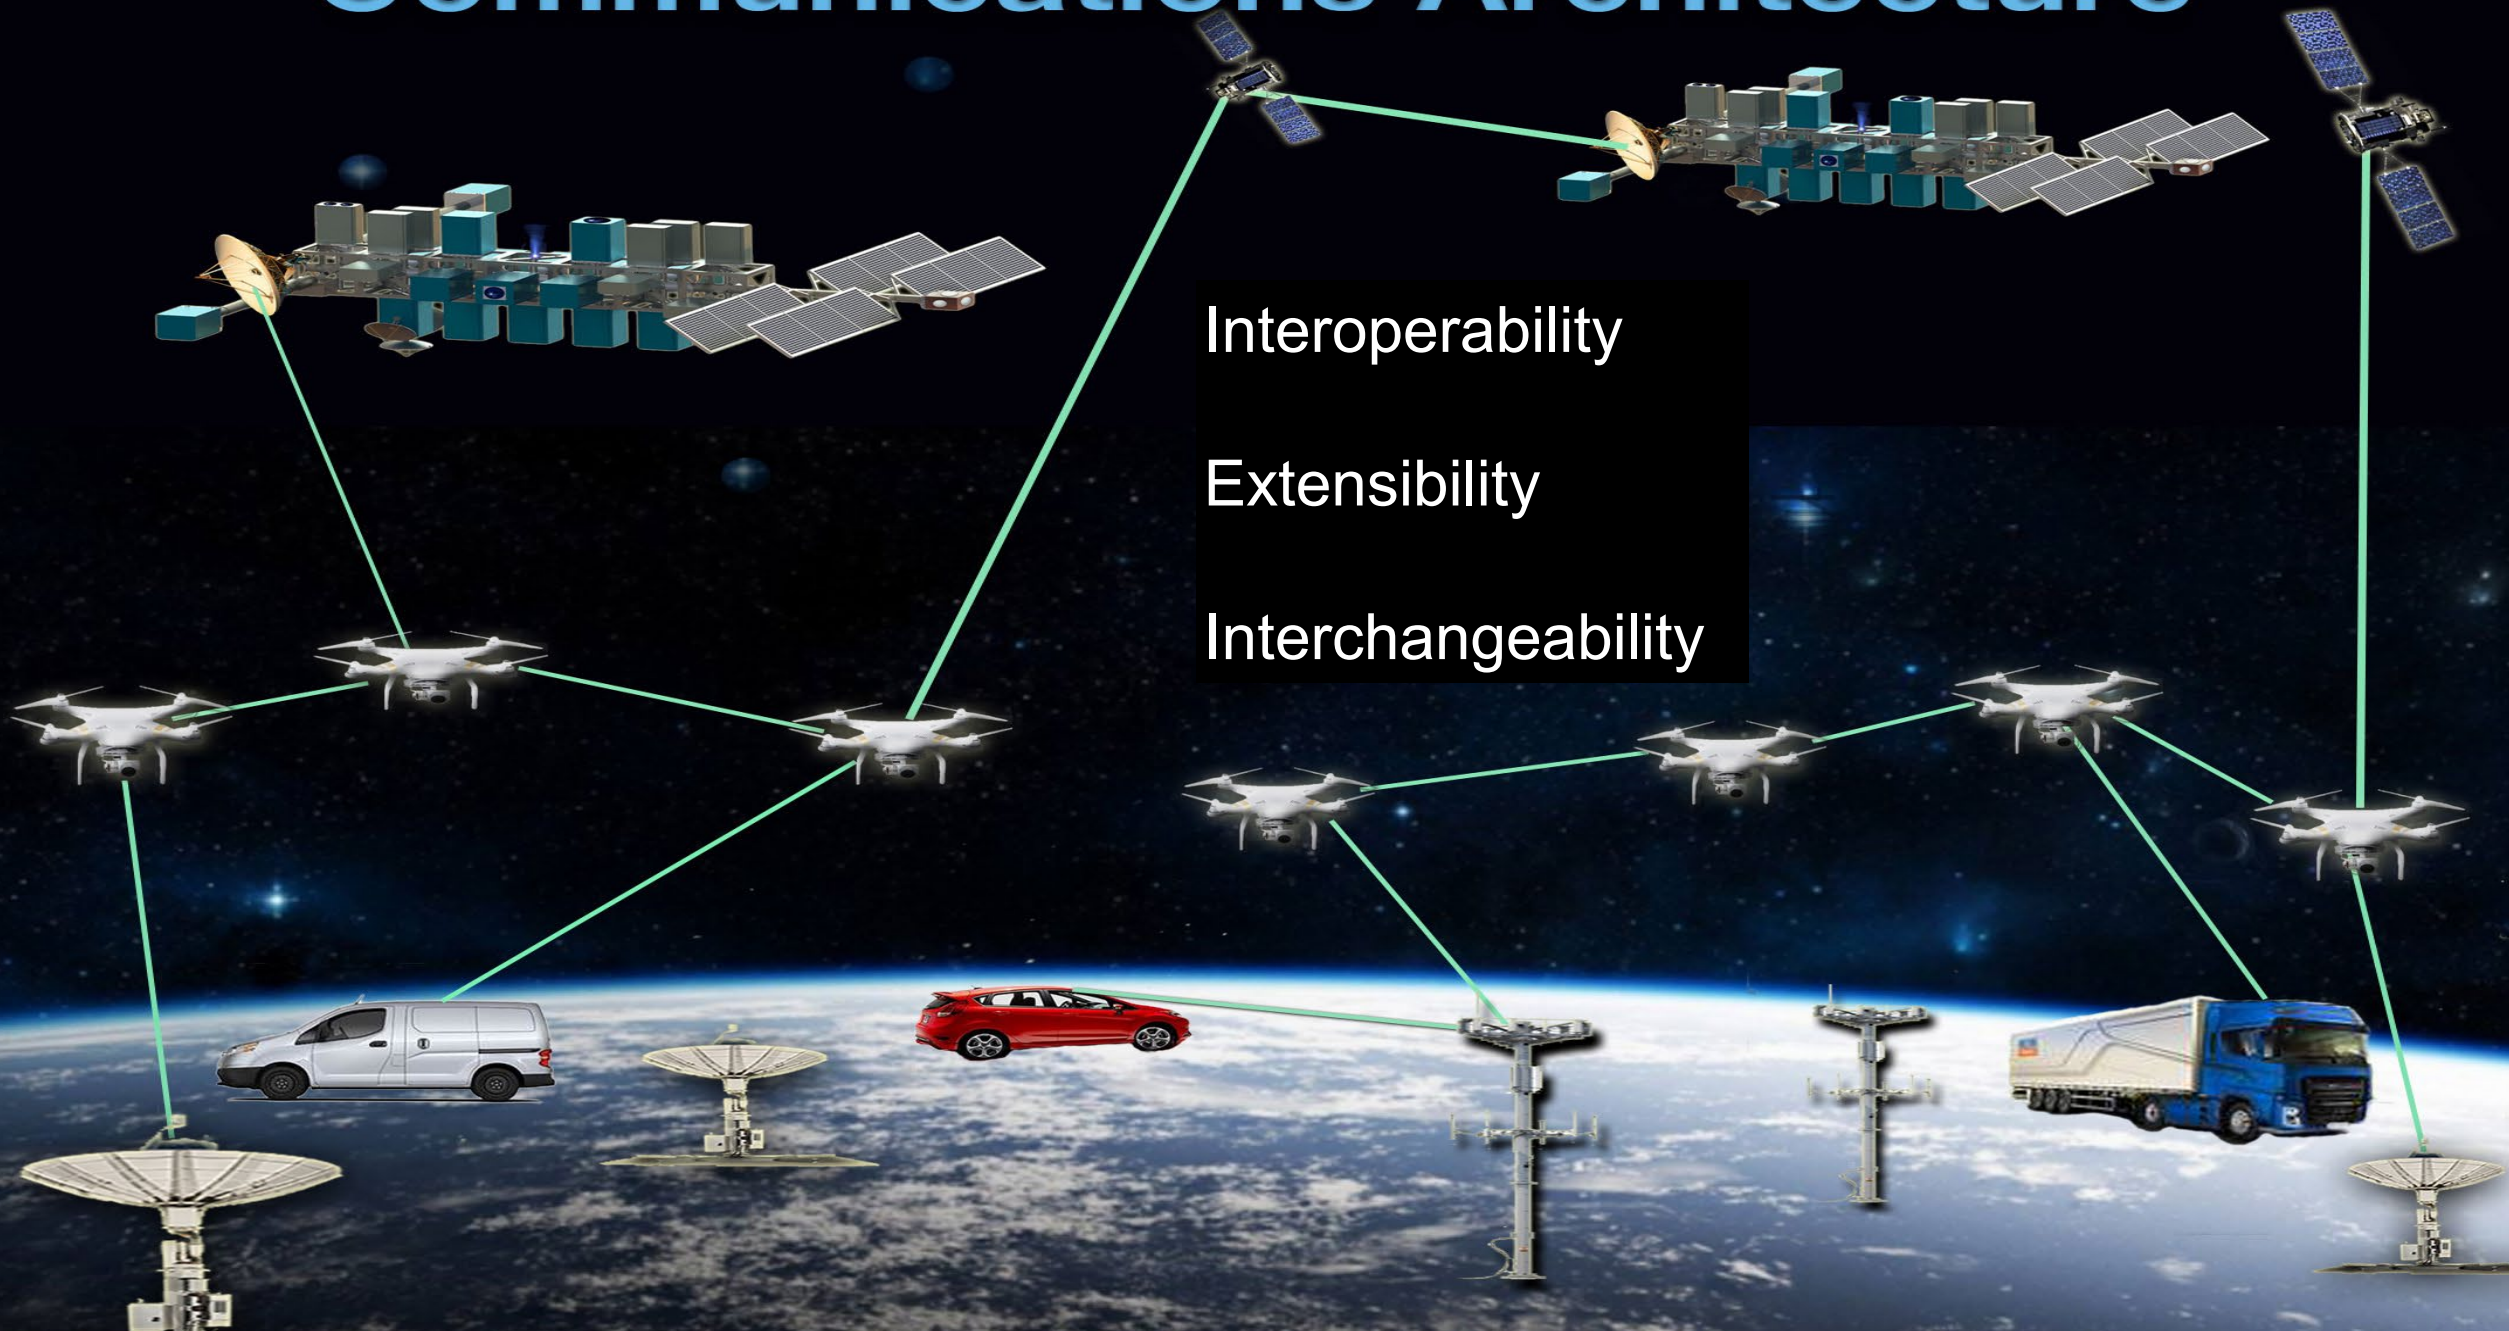

Vertical Launch Site – Marquette, MI

Command & Control - TBD

Communications Architecture

Focus on opportunities: Communication Infrastructure Mesh (CIM) enables 5G to actually realize what it was intended to do – AI, Big Data

1. Autonomous Vehicles – Ground, Sea, Air
2. Broadband connectivity for rural or unserved areas – Telehealth, remote learning, virtual office, first responders
3. Communication conduit for DoD and commercial applications
4. “So, 5G is going to be one of the cool things that we bring to the battlefield in the next OnRamp.” *Will Roper, AF acquisition*

Jobs and Capital Investment

The revenue generated by the global space industry may increase to more than \$1 trillion by 2040, up from \$350 billion currently”

The satellite broadband will represent 50% of the projected growth and as much as 70%

Morgan Stanley, July 24, 2020
