

Dear Mr. Gavin Brown,

On behalf of KOTRA, I take this wonderful opportunity to express to you our desire to maintain and strengthen the excellent relations between KOTRA and MAMA. Our organizational missions share the same collaborative nature and both strive for the continued growth and development of its members.

KOTRA feels that this relationship is beneficial to the continued development of South Korea's aerospace and defense capabilities, while contributing to MAMA's objective of continued cost savings and growth of Michigan's aerospace/defense industry.

In the spirit of collaboration, we cordially invite you and John Geisler to a formal meeting on December 13th, 2018 to propose a joint organized trade mission for April, 2018. The mission involves a select group of Korean aerospace/defense suppliers visiting Michigan based primes and integrators to demonstrate their capabilities and desire to be a value added member of the aerospace/defense community.

It is our hope that this trade mission will be the first of many joint collaborations between MAMA and KOTRA. We look forward to officially meeting with you and discussing the finer points in detail.

Regards,

Seung Hoon Shin

Director General

KOTRA Detroit
