

INDUSTRY VALUE

Customers of MAMA members benefit by being able to procure services and manufactured goods with a high level of confidence that the delivery and quality will match their individual demands, without having to increase their internal costs to audit, review and approve new vendors.

Many of our members are already on the approved vendor lists of primes, Tier 1 & 2 suppliers and work as mentors to those within MAMA's network to participate on RFQs and purchase orders.

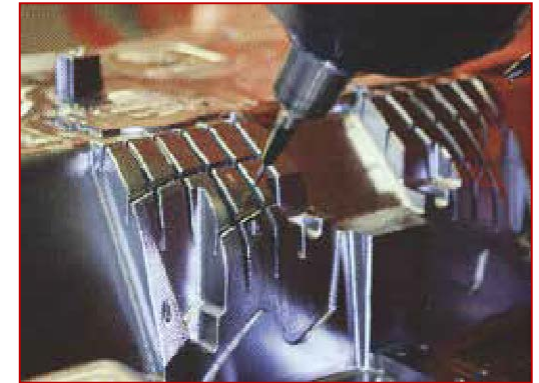

ABOUT US

MAMA is a membership association providing the global aerospace industry with state of the art technology, multiple manufacturing disciplines and extensive manufacturing capacity.

MICHIGAN AEROSPACE MANUFACTURERS ASSOCIATION

Doing More With Less

"Taking the Cost out of the Cost™"

with MAMA's

Aggregate Demand Model (ADM)™

**MICHIGAN AEROSPACE
MANUFACTURERS ASSOCIATION**

7205 Sterling Ponds Court
Sterling Heights, MI 48312

MEMBER CAPABILITIES:

- Stamping
- Casting
- Injection Molding
- Thermoforming
- Laser Cutting
- Waterjet
- Heat Treating
- EDM
- Cold Forming
- Composites
- Broaching
- Honeycomb Panels
- Welding & Fabrication
- NDT
- CNC Machining
- Fasteners
- Aerostructures
- Avionics
- Plating/Coating
- Forging
- Assembly Systems
- Fixtures and Jigs
- And much more

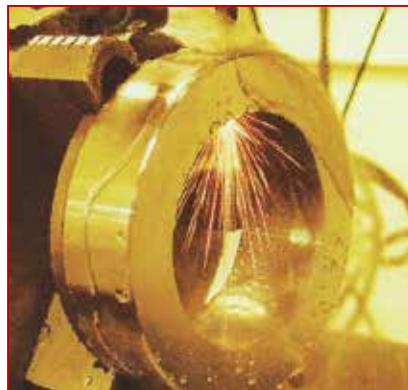

WORKING GROUPS ADVANCING MICHIGAN'S AEROSPACE AND DEFENSE TECHNOLOGY

MAMA's *Additive Manufacturing Working Group*'s mission is to promote and advance the use of additive manufactured components in the aerospace industry and to showcase Michigan's additive manufacturing capabilities.

MAMA's *Advanced Energy Working Group* is focused on developing and deploying solutions that allow for the safe utilization and transportation of lithium and lithium ion batteries from initial production through recycling.

AREAS OF ACTIVE FOCUS

- Commercial Aviation
- Military Aviation
- Missiles Defense Systems
- Rockets and Satellites
- Rotary Aviation

MEMBERSHIP VALUE

MAMA members benefit by being a part of a value supply chain that is a recognized leader in aerospace and defense for value and cost savings. We provide member to member interaction, business to business connections and have meetings on best practices, which enable members to provide a unified quality of product that cannot be achieved with individual suppliers. We work with primes, Tier 1 & Tier 2 suppliers to increase our new business development for our members throughout the world.
